Sabino Creek launches VQ Partner Programs for Lean Application Suite of Software Products.

Scottsdale, AZ, April 15, 2009 - Sabino Creek Software Inc of Scottsdale Arizona announced today a new VQ Partner Program hoping to attract a variety of partners here in the United States and abroad.

Sabino Creek is looking for a variety of partners to assist in the sales, implementation and support of their *VisualQueue Lean ERP*[®] and *VisualQueue Shop Floor*[®] software products.

Partners are being sought in the following areas as value added resellers, sales agents, software implementers, trainers, lean consulting and complementary product partners.

“The *Visual Queue Technology*[®] products changes the ERP and shop floor paradigm from a reactive to proactive scheduling environment says Jeff Leinwand, Sabino Creeks own Chief Technology Officer. We found that small to medium sized companies were spending too much money on software and infrastructure to manage the day to day operations on the plant floor and that the systems they were using were overly complicated and required too much care and feeding. We have changed that paradigm with our *VisualQueueERP*[®] and *VisualQueueShopFloor*[®] Lean Scheduling and Execution software.”

For more information contact sales at sales@sabinocreek.com or go to their website at www.sabinocreek.com.
